

Antitrust and Competition Regulatory and Enforcement

Our Antitrust & Competition Regulatory & Enforcement practice includes all aspects of antitrust and competition-related regulatory compliance and defense of clients in antitrust and competition investigations and regulatory enforcement actions. We offer a well-rounded perspective and our team members based in Washington, D.C., New York, and Europe work seamlessly across offices and borders to help clients with multi-jurisdictional investigations. We also have earned the respect of the regulators and are able to offer companies opportunities to bring anticompetitive activities in the marketplace to the attention of state and federal antitrust enforcers.

We regularly assist companies and executives in regulatory investigations relating to allegations of antitrust and competition law violations. Whether responding to a DOJ criminal investigation or an FTC civil investigation, our *Chambers* and *The Legal 500*-ranked white collar defense and corporate investigations team has a superb record in achieving favorable results on behalf of our clients. In enforcement actions, we are skilled trial lawyers and are comfortable handling cases in federal courts as well as before FTC administrative law judges. We have particular strength in helping companies navigate parallel government and civil actions and working with them to determine the most advantageous litigation strategy, including working with economic experts as appropriate, when facing criminal and civil actions relating to the same conduct.

Members of our team have been recognized by *Chambers USA*, *Who's Who Legal*, *The Legal 500* and other esteemed publications in the antitrust and competition categories. Several of our partners have served in leadership roles within the ABA Antitrust Section for years, and our senior attorneys regularly lecture and write on issues of interest to the antitrust community.

Antitrust & Competition Investigations

Select matters handled by our attorneys include:

- Represent a public streaming entertainment company in its capacity as a third party in various civil investigations and litigation brought by the FTC and certain U.S. state attorneys general in which the company's interests are impacted by the actions of the largest Big Tech companies.
