

Family Office

C&G's family office practice understands the unique needs of families and individuals, and navigates the complexities inherent in creating and maintaining a multi-generational enterprise, investment structure, and legacy. No family is alike, and our representations are tailored to the discrete requirements of each client.

Operating primarily from London, in close coordination with our colleagues in New York and Paris, we offer comprehensive legal service to family offices and high net worth individuals, including advising on:

- fund structure and investment
- strategic transactions
- tax issues
- employment matters
- regulatory compliance
- commercial disputes
- and, when absolutely necessary, defense against investigations or prosecutions.

We are well-versed in key jurisdictions including the Cayman Islands, Jersey, and Luxembourg. With decades of experience, including at premier hedge funds, the UK Serious Fraud Office, and top global law firms, we deliver consistent, high quality service across the types of matters our clients are likely to face.
